

Dakota

Dakota is a new generation of furniture that identifies the need for maximum value to fit into any nursery space. All the features that set Westwood Design apart are built into the Dakota group. The convertible hutch/bookcase introduces a revolutionary concept – a hutch for the combo that converts to a generous size children’s bookcase. The chest and the combo are Euro Size – a slightly smaller footprint that allows a full set of Westwood furniture to fit any room. Dakota is style with practicality.
